

Recommendations for future activities

Lack of networking, intensification of cooperation: networking events (workshops like consultation sessions)

Summer schools in specific topics

Transborder Centre of Excellence

Need for more multilateral cooperation

Governance of research policies

Data bases on human resources (researchers, research institutions, agencies) by NCPs should be harmonized, following the model of ICT, and on infrastructure

Data base on research infrastructures

Guide of cartography of excellence (for China) has been developed in DG RTD/ENV (Nikos)

Capacity building, develop research infrastructure

Exchange of students

Project ERA Westbalkan data base
