Sarajevo, May 2009

National background report on Transport for Bosnia and Herzegovina

FUNDAMENTAL OBJECTIVE: to provide all available information on (transport related) R&D capacity and infrastructure in Bosnia and Herzegovina.

The other objective: to identify not only national transport research priorities, but also the existing problems in the field of transport research in the country.

National background report on Transport for Bosnia and Herzegovina

The report is based on data from different sources, especially:

- ✓ **Organisations responsible for R&D funding;**
- ✓ **Main research performers, both from the public and private sector;**
- ✓ **Reports and studies related to research and transport in the country.**

National background report on Transport for Bosnia and Herzegovina

SWOT ANALYSIS:

STRENGTHS:

- *Established National Contact Point*
- *R&D Institutions are willing to improve the current situation*

OPPORTUNITIES:

- *Memorandum of Understanding on the association of Bosnia and Herzegovina to the Seventh European Framework Programme*

WEAKNESSES:

- *Strategic approach is Missing*
- *Insufficient and fragmented funding*
- *Poor research infrastructure*

THREATS:

- *Global financial crisis*
